

Press Release

September 12, 2018

ELLIOT LAKE - At Monday night's meeting, Council agreed to sell a small portion of the existing Public Works yard on Timber Road to Timberock International to accommodate a planned expansion of their existing manufacturing facility. Council declared the 0.59 acre portion as surplus to the needs of the municipality to begin the process of the land sale.

Mayor Dan Marchisella noted "we are more than happy to accommodate a growing business and major employer in the community by selling a small, non essential parcel of land we were using for outside storage".

Timberock will cover all of the city's legal and administrative expenses and provide \$10,000 for the small parcel of land. Declaring the land surplus is the first step in the land sale process with a formal bylaw to come in the near future.

Timberock is headquartered immediately adjacent to the City's Public Works yard on Timber Road in the North Industrial Area.
